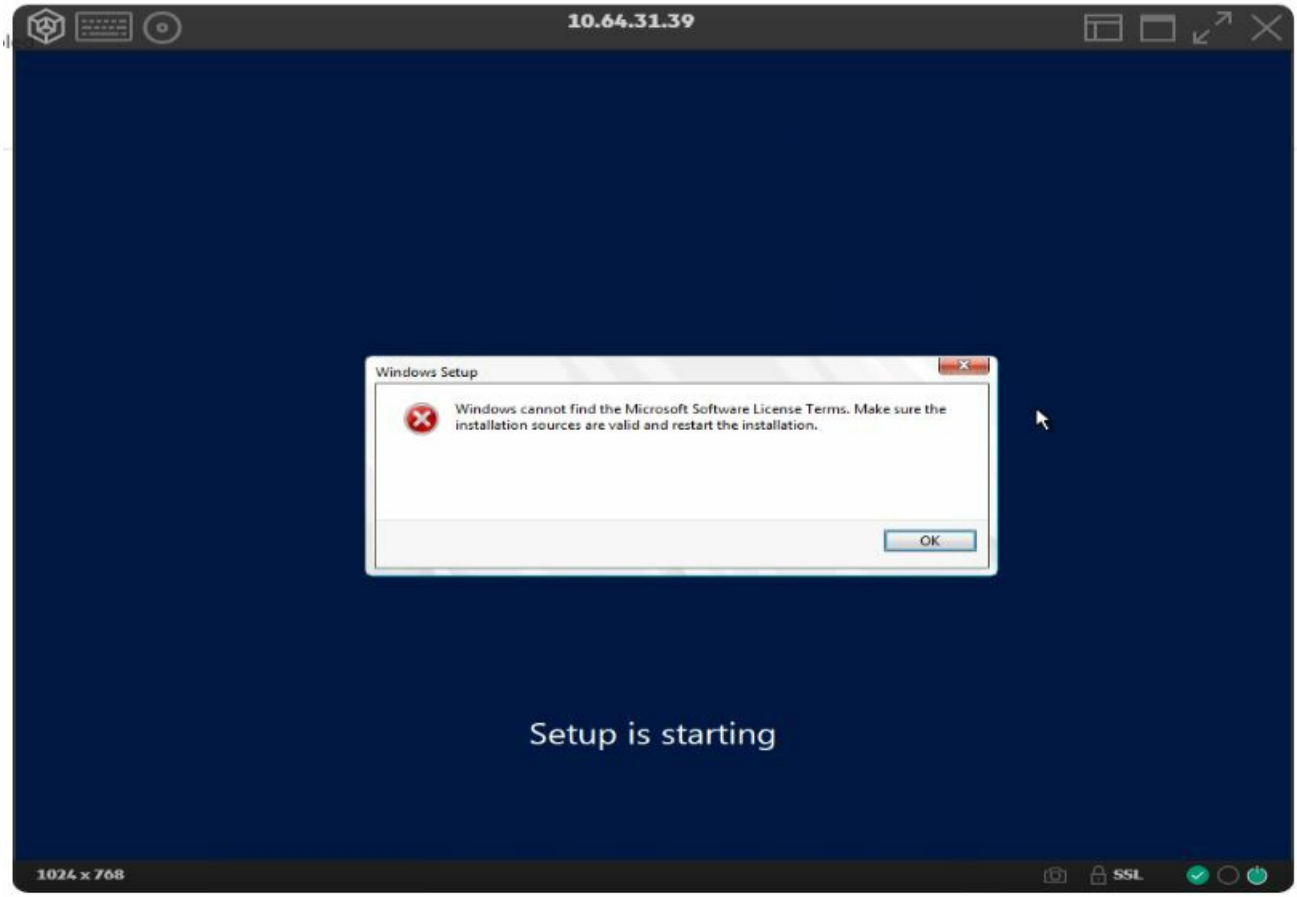
Question

"Windows Cannot Find the Microsoft Software License Terms" error installing Windows 2019 OS from Intelligent Provisioning (any version) us ing Evaluation image available from Microsoft. Screen Shot asmentioned below

Evaluation Image could be downloaded from below link.

https://www.microsoft.com/en-us/evalcenter/evaluate-windows-server-2019

Below error can be seen during Installation, same has been tested with different Intelligent provisioning versions



Answer

Resolution

The possible workarounds as mentioned below.

Work Around 1:

Use a different Volume license image of Windows 2019, instead of Evaluation version, in case OS installation from Intelligent Provisioning is d esired.

Work Around 2:

In case, cx wants to use only evaluation version of Windows 2019, then perform the OS installation directly booting from OS image (i.e. do not use Intelligent Provisioning assisted installation.)
